1. About the app

Image DSR (Daily Sales Reporting) is Image Marketing's mobile app for recording daily sales. It shows Target, Achievement, comparison with the same period last year (L2L) and Growth in real time.

This manual is for the **Store Manager** role. In the app you can:

- Record sales for every brand in your store (last 7 days)
- Upload system sales from Excel in one go
- View the store DSR and brand / salesman reports
- Request changes to a salesman's brands

> **Note:** Everyone uses the same link: **https://imagefashionforever.github.io/image-dsr/**. After you sign in, the app automatically shows the screens for your role.

2. Installing the app (one time only)

Android phone (Chrome)

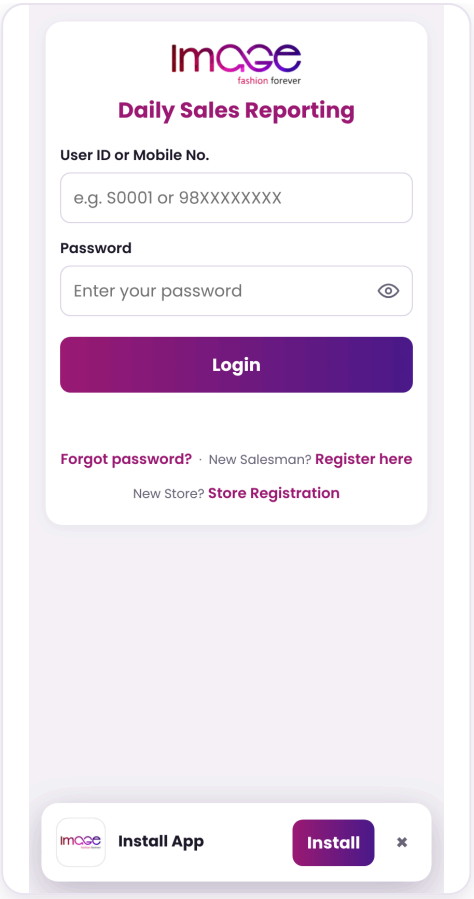

1. Tap the link you received on WhatsApp. If it opens inside WhatsApp, tap ⋮ at the top and choose **Open in Chrome**.
2. Two to three seconds after the app opens, an **Install App** bar appears at the bottom. Tap **Install**.
3. When Chrome asks for confirmation, tap **Install** again. The **Image DSR** icon is added to your home screen.
4. From now on, open the app from this icon.

> **Important:** Installing from the Samsung Internet browser may show "Unsafe app blocked". This is not a security risk, but we recommend opening the link in **Chrome** instead.

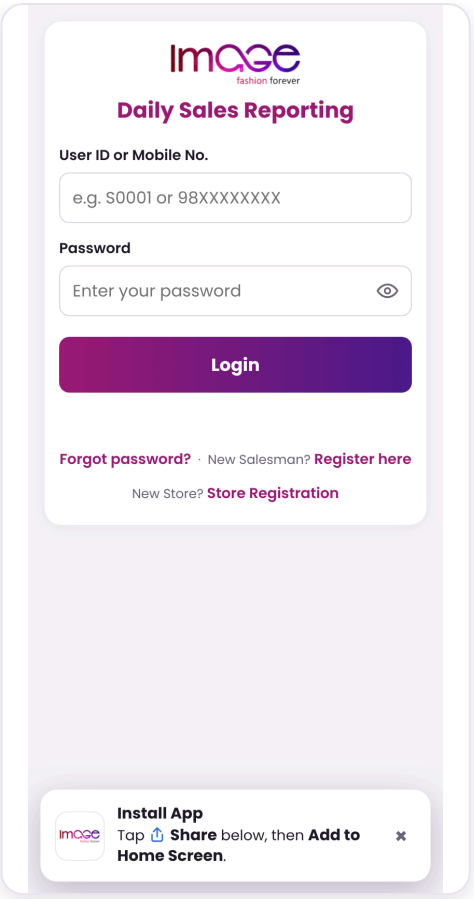

> **Tip:** If the bar does not appear, open the Chrome ⋮ menu and tap **Install app / Add to Home screen**. Apps cannot be installed from an Incognito tab.

iPhone (Safari)

1. Open the link in **Safari**.
2. Tap the **Share** button at the bottom (a square with an upward arrow).
3. Tap **Add to Home Screen**, then **Add**.

Android: the "Install App" bar

iPhone: Share → Add to Home Screen

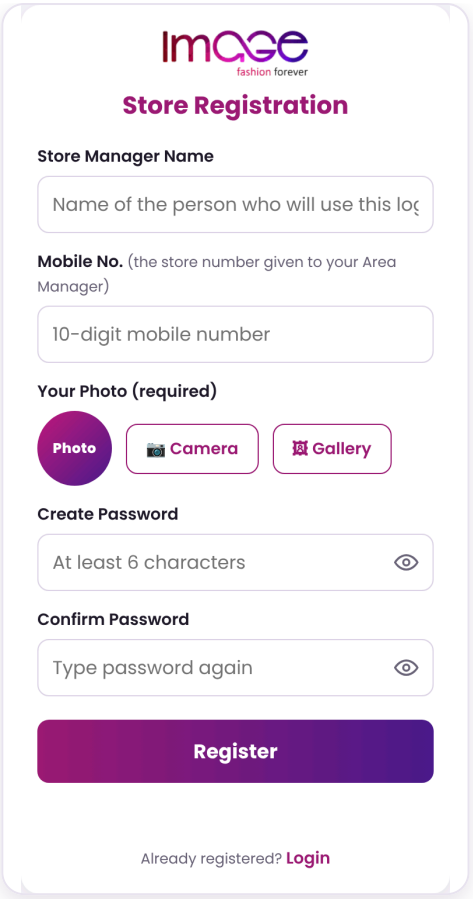

3. First time: registration

Before registering, give your mobile number to your Area Manager. They will add it to the **Store Mobile** column of your store and brand in the Mapping sheet.

1. Open the app. On the sign-in screen, tap New Store? **Store Registration**.
2. Enter your full name and the same mobile number.
3. Tap **Camera**, keep your face inside the circle and tap **Capture**. A photo is required. If the phone asks "Allow camera?", tap **Allow**.
4. Create a password (at least 6 characters) and enter it again to confirm.
5. Tap **Register**. If the phone asks "Allow location?", tap **Allow**. Location is required.
6. Your **User ID** is shown on screen (for example ST0002). Write it down.

Your registration is sent to **your Area Manager and Sales Head** for approval. You can sign in once it is approved. Each brand is approved separately.

> **Important:** If you see "Mobile number is not added in the Mapping yet", ask your Area Manager to add your number to the Mapping sheet. If every brand is rejected, a **Register Again** button appears on the sign-in screen.

Store registration form

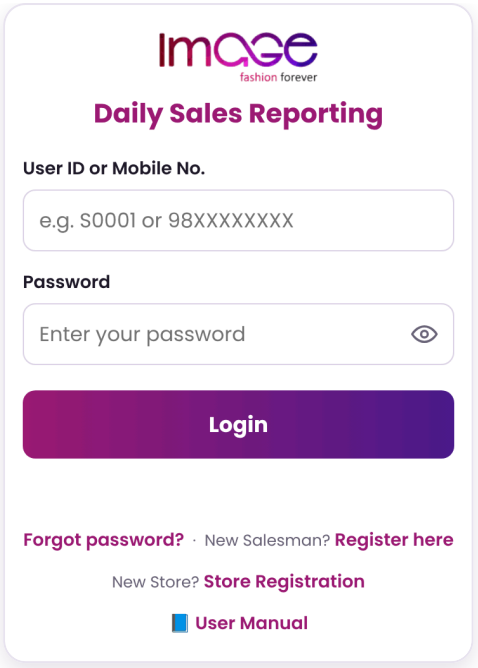

4. Signing in, MPIN and signing out

Sign in with your password

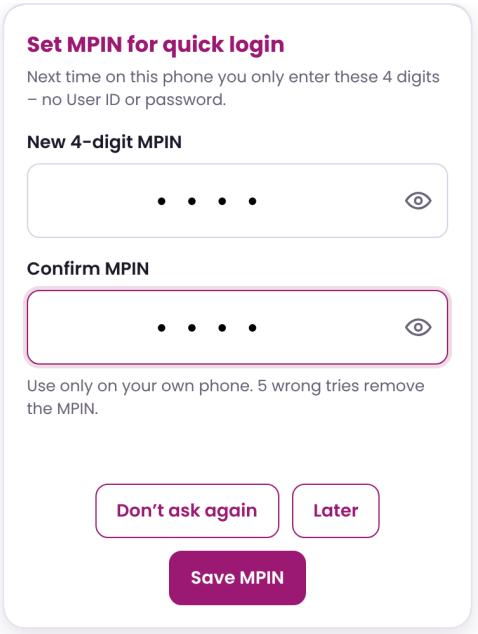

1. Enter your **User ID** (for example S0001) or your **mobile number**.
2. Enter your **Password**. Tap the 👁 eye icon to show the password.
3. Tap **Login**.

MPIN (phones only)

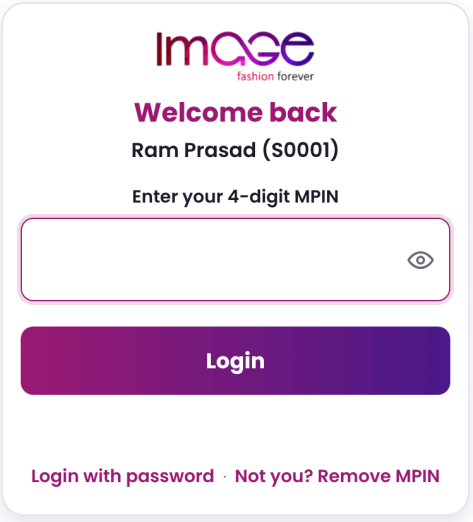

1. The first time you sign in with your password, the **Set MPIN** window appears.
2. Enter a 4-digit MPIN twice (simple codes such as 1111 or 1234 are not accepted) and tap **Save MPIN**.
3. Next time you open the app, just enter the 4 digits to sign in.

Sign-in screen

Setting the MPIN

Next time: MPIN only

Important: After 5 wrong MPIN attempts the MPIN is removed and you must sign in with your password. Before giving the phone to someone else, tap **Not you? Remove MPIN** on the MPIN screen. MPIN is not offered on computers.

Automatic sign-out

- You are signed out after 15 minutes without activity, and every night at midnight. On a phone you are then asked for your MPIN.
- Tapping **Logout** in the profile menu takes you to the normal sign-in screen, which also shows a **Login with MPIN** link.

5. The profile menu: photo, help, MPIN, password and sign-out

Your **name and role** are shown at the top right. Tap your **round photo** (marked ☰) to open the profile menu:

- 📷 **Change Photo**: take or choose a new profile picture.
- 📘 **Help**: open this manual for your role in Hindi or English. **Manuals for other roles** lists all roles.
- 🔒 **Set MPIN / Change MPIN**: create, change or remove your MPIN (phones only).
- 🔑 **Change Password**: enter your current password and the new password twice, then tap **Change**.
- ➤ **Logout**: sign out of the app.

The menu shows only the options available to your role. Tap anywhere outside the menu to close it.

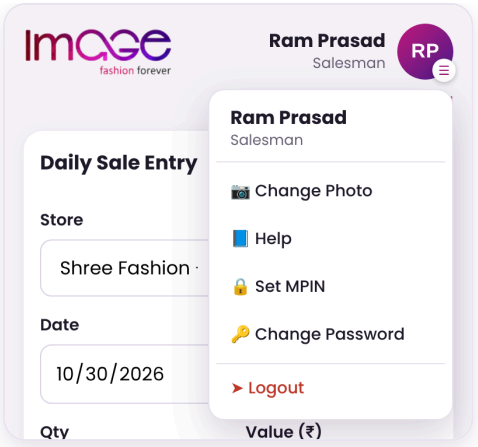

On your **first sign-in** on a phone, a 📘 **User Manual** link also appears below your photo. It disappears once you set an MPIN or sign in again; after that, Help is always in the profile menu.

Forgot your password?

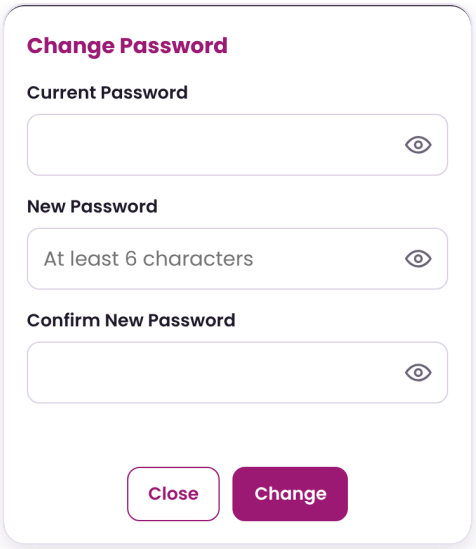

1. On the sign-in screen, tap **Forgot password?**.
2. Enter your User ID or mobile number and tap **Send Request**.
3. Your manager will give you a **one-time password (OTP)**. Sign in with it, then set a new password of your own.

Why the app asks for your location

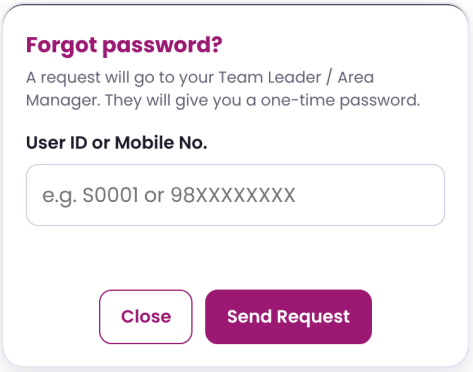

Your phone's location is recorded when a Salesman or Store Manager signs in, and with every sale entry, Excel upload and registration. The app will not continue without it. Keep **Location (GPS)** turned on and **Allow** the app to use it.

Profile menu

Changing the password

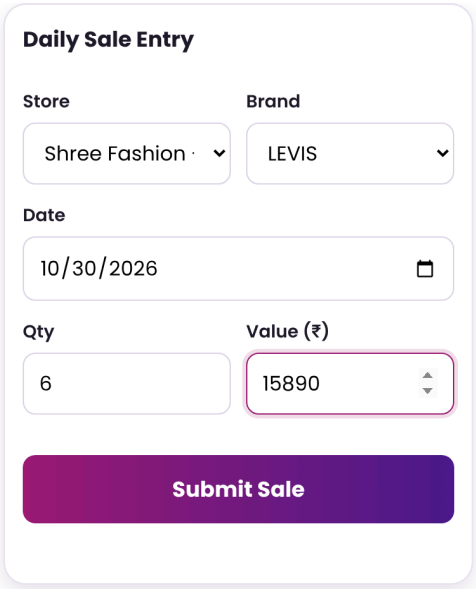

Forgot password

6. Daily Entry: recording sales

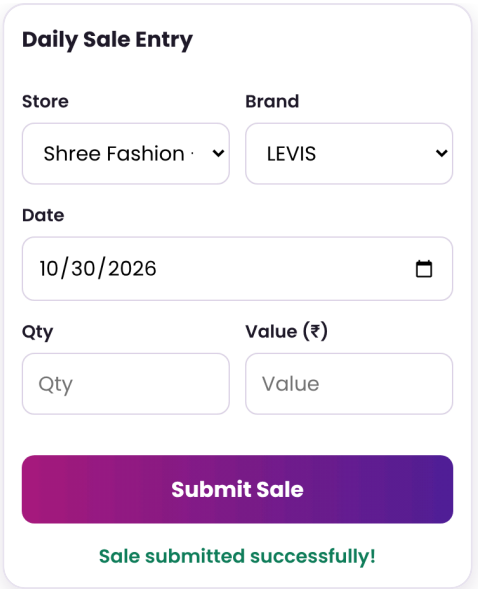

1. Open the **Daily Entry** tab.
2. Select the **Store** and **Brand**.
3. Select the **Date** (today's date is filled in).
4. Enter the **Qty** (pieces) and **Value (₹)**.
5. Tap **Submit Sale** and allow location access. "Sale submitted successfully!" confirms the entry.

You can enter sales for any brand in your store for the **last 7 days**. Your entry takes priority and replaces the Salesman's entry.

> **Note:** Made a mistake? Submit the entry for the same date again and it replaces the previous one. Entries made by a **Store Manager or Salesman** cannot be changed by a TL or AM. Order of priority: Store Manager → Salesman → TL → AM.

Entry form

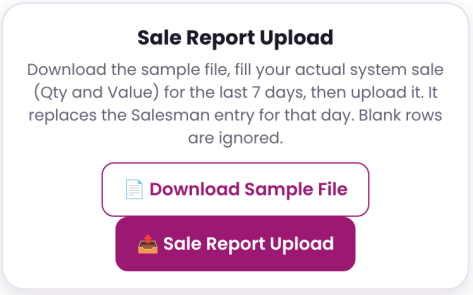

After submitting

7. Bulk entry from Excel: Sale Report Upload

Use this to upload the actual sales from your billing system in one go. It replaces the Salesman's entry for those days.

1. In the **Daily Entry** tab, tap **Download Sample File**.
2. Fill in Qty and Value in Excel. Blank rows are ignored.
3. Tap **Sale Report Upload** and choose the file. Allow location access.
4. A summary shows how many entries were saved or updated, and which were not saved (with the reason).

Sale Report Upload

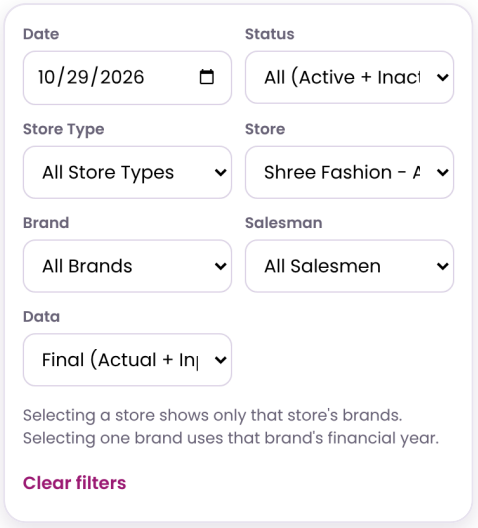

8. DSR tab: team report

This tab shows the report for your store. Use the filters at the top to narrow it down:

Filter	Purpose
Date	Report up to this date
Brand / Salesman	A single brand or salesman

Filter	Purpose
Data	Final, Salesman Input or Actual

- Below the filters is the **DSR card** (Day / Week / Month / Year).
- **Table**: use the **By** drop-down to group by Store, Brand, Salesman, TL and so on. Switch the period with **Day / WTD / MTD / YTD**.
- Tap a row in the table to open the next level (for example, Store → its Brands).
- Use the 🔍 search box above the table to show only matching rows.
- **Download Excel**: export the report and daily entries.
- Long drop-downs have a 🔍 button: tap it and type part of a name to find it quickly.

Filters

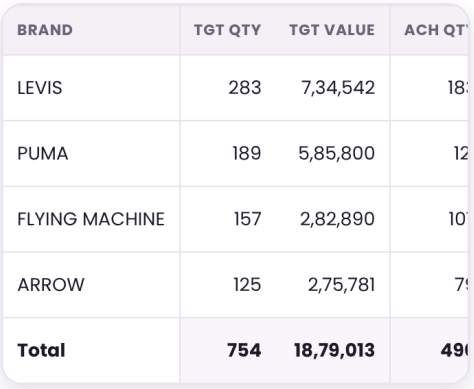

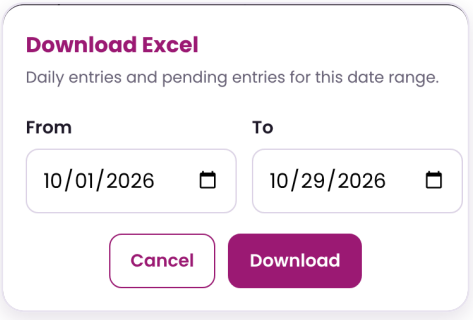

Table (by brand)

Downloading Excel

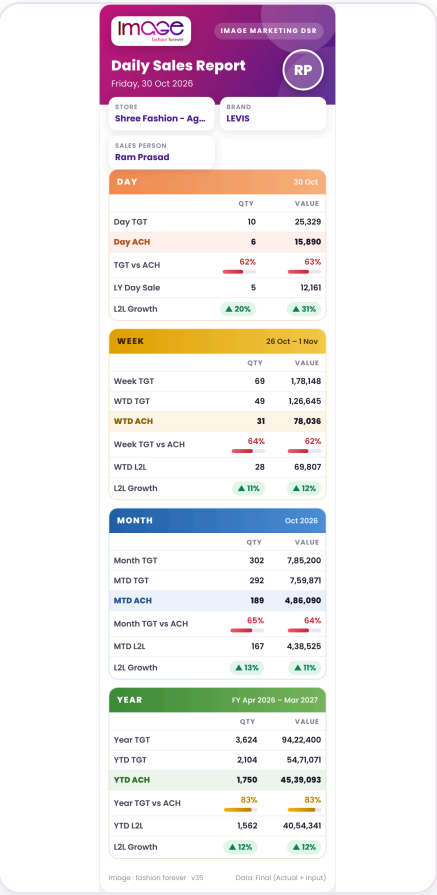

9. Reading the DSR card

The DSR (Daily Sales Report) card shows the store's sales in four blocks: **Day**, **Week**, **Month** and **Year** (financial year).

Line	Meaning
TGT	Target (from the Targets sheet)
ACH	Achievement: actual sales
TGT vs ACH	Percentage of the target achieved (with a progress bar)

Line	Meaning
LY / L2L	Sales in the same period last year
L2L Growth	Change versus last year: ▲ green for growth, ▼ red for decline

- **Save DSR as Image**: saves the card as a picture you can share on WhatsApp.
- **Download Excel**: choose a date range to download daily entries as an Excel file.

DSR card

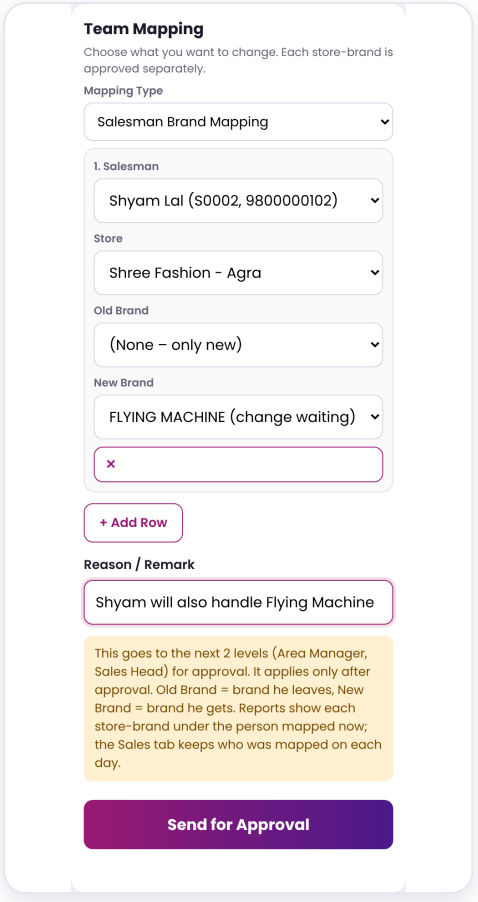

10. Team Mapping: changing salesmen and team

Choose what you want to change from the **Mapping Type** drop-down:

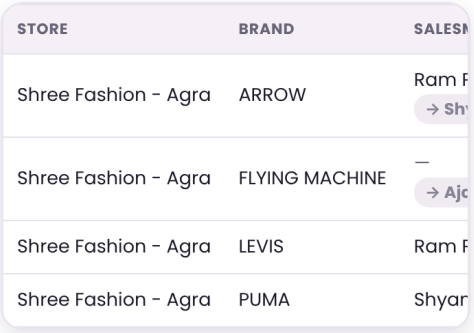

Mapping Type	What it does
Salesman Brand Mapping	Remove a salesman's old brand or assign a new one within a store (Salesman | Store | Old Brand | New Brand)
Replace Person (Left / Handover)	Hand over all of a leaver's work to a new or existing person in one step

1. Choose the Mapping Type and fill in the form. Use **+ Add Row** to add several rows at once.
2. Enter a **Reason / Remark**.
3. Tap **Send for Approval**. The request goes to your **Area Manager and Sales Head**.

- The brand drop-down shows who is currently assigned, for example "LEVIS – now Ram Prasad". " (change waiting)" means a change is already awaiting approval.
- **Current Team** lists the Salesman, TL and AM for each brand. Changes awaiting approval are shown as "→ name (waiting)".
- **Change Requests** at the bottom shows when and by whom each change was requested, its status, and who approved it.
- Reports show a store-brand's sales under the person currently assigned. The person assigned on each day is kept in the Sales sheet and in the Daily Entries Excel export.

Current Team

11. Troubleshooting

Problem	What to do
"Wrong User ID or password"	Check your User ID / mobile number and password. After 5 failed attempts, wait 15 minutes.
"Location is required" / permission blocked	Turn on phone Location. Tap 🔒 next to the web address → Permissions → Location → Allow.
"Waiting for approval"	Your registration, or at least one brand, has not been approved yet. Contact your manager.
"Sorry, unable to open the file" (Chrome)	Always use the github.io link or the home-screen icon, not the direct Google link.

Problem	What to do
"Session expired"	Sign in again or enter your MPIN (happens after 15 minutes of inactivity or at midnight).
"Server is busy"	Wait a few seconds and try again. The app also retries automatically up to three times.
