1. About the app

Image DSR (Daily Sales Reporting) is Image Marketing's mobile app for recording daily sales. It shows Target, Achievement, comparison with the same period last year (L2L) and Growth in real time.

This manual is for the **Salesman** role. In the app you can:

- Record your daily sales (Qty and Value)
- View your DSR: Target, Achievement and Growth
- Share the DSR as an image on WhatsApp and download Excel reports

> **Note:** Everyone uses the same link: the app link sent to you on WhatsApp. After you sign in, the app automatically shows the screens for your role.

2. Installing the app (one time only)

Android phone (Chrome)

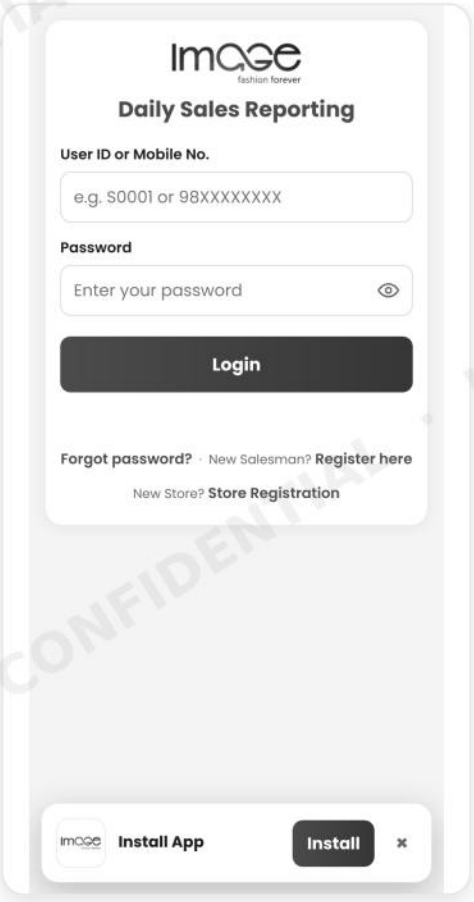

1. Tap the link you received on WhatsApp. If it opens inside WhatsApp, tap ⋮ at the top and choose **Open in Chrome**.
2. Two to three seconds after the app opens, an **Install App** bar appears at the bottom. Tap **Install**.
3. When Chrome asks for confirmation, tap **Install** again. The **Image DSR** icon is added to your home screen.
4. From now on, open the app from this icon.

> **Important:** Installing from the Samsung Internet browser may show "Unsafe app blocked". This is not a security risk, but we recommend opening the link in **Chrome** instead.

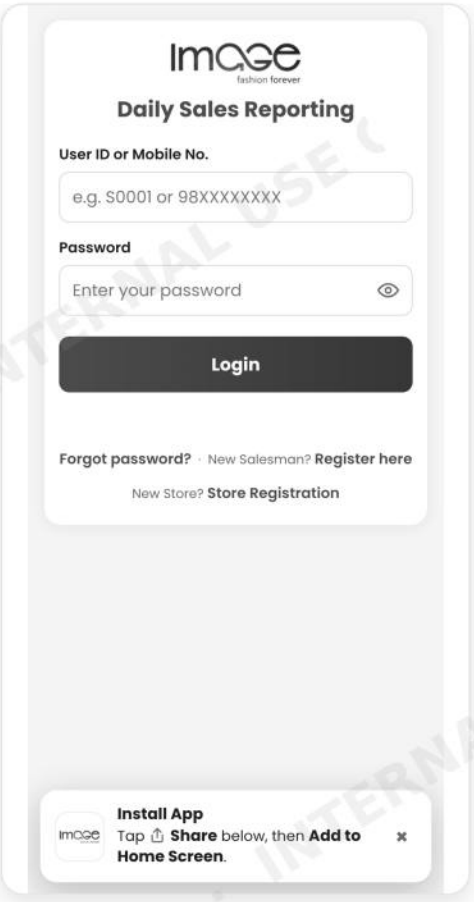

> **Tip:** If the bar does not appear, open the Chrome ⋮ menu and tap **Install app / Add to Home screen**. Apps cannot be installed from an Incognito tab.

iPhone (Safari)

1. Open the link in **Safari**.
2. Tap the **Share** button at the bottom (a square with an upward arrow).
3. Tap **Add to Home Screen**, then **Add**.

Android: the "Install App" bar

iPhone: Share → Add to Home Screen

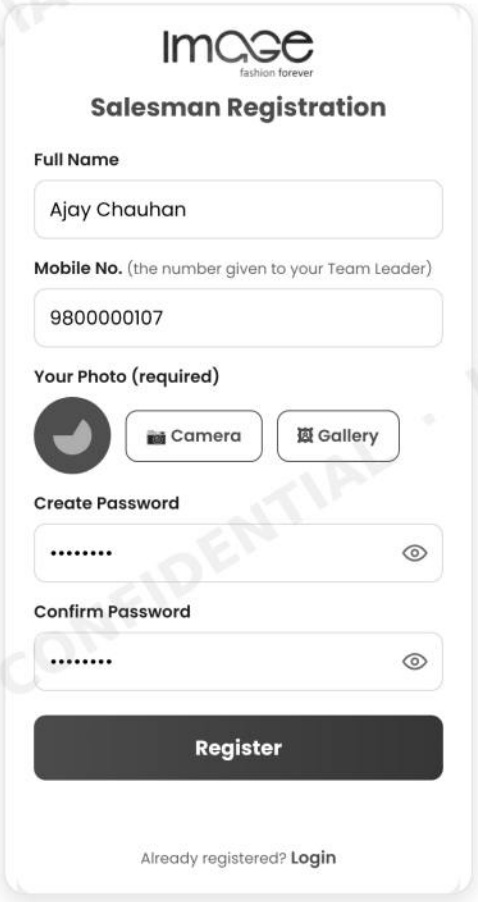

3. First time: registration

Before registering, give your mobile number to your Team Leader. They will add it to the **Salesman Mobile** column of your store and brand in the app mapping.

1. Open the app. On the sign-in screen, tap New Salesman? **Register here**.
2. Enter your full name and the same mobile number.
3. Tap **Camera**, keep your face inside the circle and tap **Capture**. A photo is required. If the phone asks "Allow camera?", tap **Allow**.
4. Create a password (at least 6 characters) and enter it again to confirm.
5. Tap **Register**. If the phone asks "Allow location?", tap **Allow**. Location is required.
6. Your **User ID** is shown on screen (for example S0006). Write it down.

Your registration is sent to **your Team Leader and Area Manager** for approval. You can sign in once it is approved. Each brand is approved separately.

> **Important:** If you see "Mobile number is not added in the Mapping yet", ask your Team Leader to add your number to the app mapping. If every brand is rejected, a **Register Again** button appears on the sign-in screen.

4. Signing in, MPIN and signing out

Sign in with your password

1. Enter your **User ID** (for example S0001) or your **mobile number**.
2. Enter your **Password**. Tap the 👁 eye icon to show the password.
3. Tap **Login**.

MPIN (phones only)

1. The first time you sign in with your password, the **Set MPIN** window appears.
2. Enter a 4-digit MPIN twice (simple codes such as 1111 or 1234 are not accepted) and tap **Save MPIN**.
3. Next time you open the app, just enter the 4 digits to sign in.

Sign-in screen

Setting the MPIN

Next time: MPIN only

> **Important:** After 5 wrong MPIN attempts the MPIN is removed and you must sign in with your password. Before giving the phone to someone else, tap **Not you? Remove MPIN** on the MPIN screen. MPIN is not offered on computers.

Automatic sign-out

- You are signed out after 15 minutes without activity, and every night at midnight. On a phone you are then asked for your MPIN.
- Tapping **Logout** in the profile menu takes you to the normal sign-in screen, which also shows a **Login with MPIN** link.

5. The profile menu: photo, help, MPIN, password and sign-out

Your **name and role** are shown at the top right. Tap your **round photo** (marked ☰) to open the profile menu:

- 📷 **Change Photo**: take or choose a new profile picture.
- 📘 **Help**: open this manual for your role in Hindi or English. **Manuals for other roles** lists all roles.
- 🔒 **Set MPIN / Change MPIN**: create, change or remove your MPIN (phones only).
- 🔑 **Change Password**: enter your current password and the new password twice, then tap **Change**.
- ➤ **Logout**: sign out of the app.

The menu shows only the options available to your role. Tap anywhere outside the menu to close it.

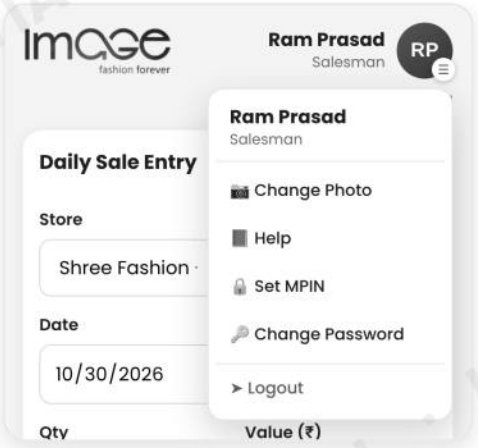

On your **first sign-in** on a phone, a 📘 **User Manual** link also appears below your photo. It disappears once you set an MPIN or sign in again; after that, Help is always in the profile menu.

Forgot your password?

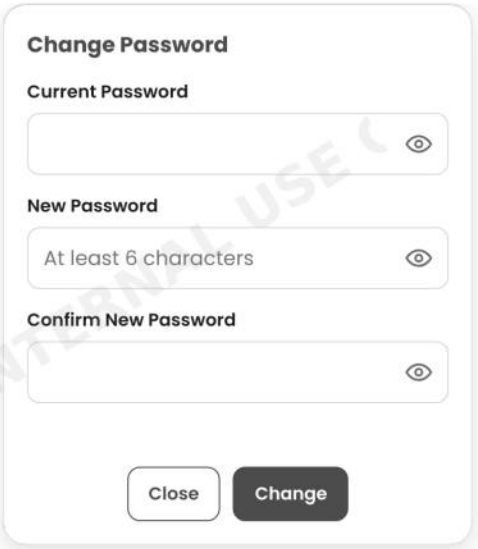

1. On the sign-in screen, tap **Forgot password?**.
2. Enter your User ID or mobile number and tap **Send Request**.
3. Your manager will give you a **one-time password (OTP)**. Sign in with it, then set a new password of your own.

Why the app asks for your location

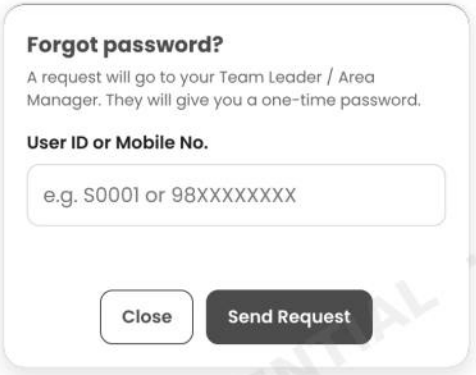

Your phone's location is recorded when a Salesman or Store Manager signs in, and with every sale entry, Excel upload and registration. The app will not continue without it. Keep **Location (GPS)** turned on and **Allow** the app to use it.

Changing the password

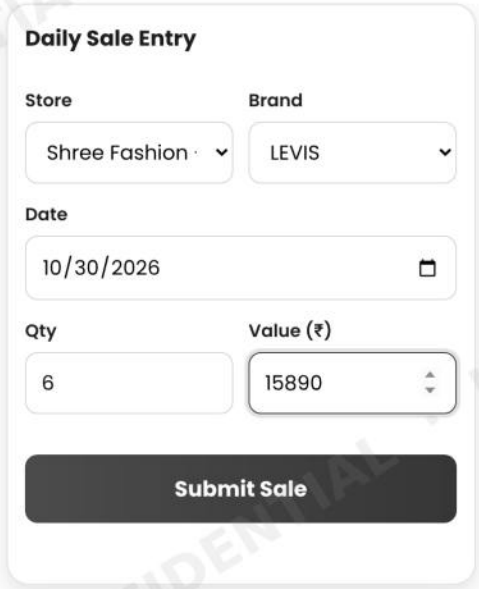

Forgot password

6. Daily Entry: recording sales

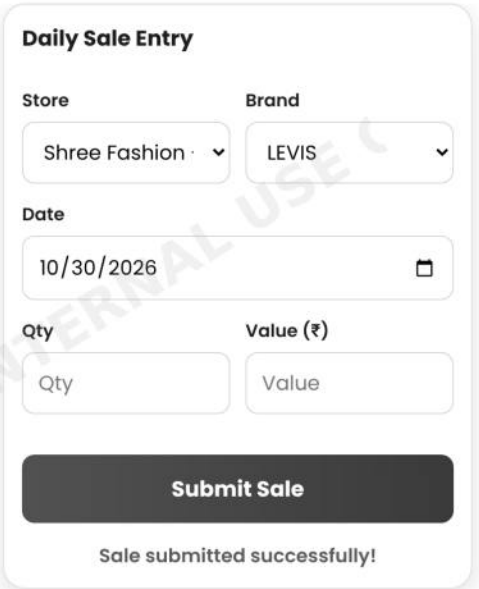

1. Open the **Daily Entry** tab.
2. Select the **Store** and **Brand**.
3. Select the **Date** (today's date is filled in).
4. Enter the **Qty** (pieces) and **Value (₹)**.
5. Tap **Submit Sale** and allow location access. "Sale submitted successfully!" confirms the entry.

Entries are accepted **from 5:00 PM until 11:00 AM the next morning** for that day's sales. You can enter today and the previous two days.

> **Note:** Made a mistake? Submit the entry for the same date again and it replaces the previous one. Entries made by a **Store Manager or Salesman** cannot be changed by a TL or AM. Order of priority: Store Manager → Salesman → TL → AM.

Entry form

After submitting

7. Reading the DSR card

The DSR (Daily Sales Report) card shows your store-brand sales in four blocks: **Day**, **Week**, **Month** and **Year** (financial year).

Line	Meaning
TGT	Target (set by the company)
ACH	Achievement: actual sales
TGT vs ACH	Percentage of the target achieved (with a progress bar)
LY / L2L	Sales in the same period last year
L2L Growth	Change versus last year: ▲ green for growth, ▼ red for decline

- **Save DSR as Image**: saves the card as a picture you can share on WhatsApp.
- **Download Excel**: choose a date range to download daily entries as an Excel file.

DSR card

8. Troubleshooting

Problem	What to do
"Wrong User ID or password"	Check your User ID / mobile number and password. After 5 failed attempts, wait 15 minutes.
"Location is required" / permission blocked	Turn on phone Location. Tap 🔒 next to the web address → Permissions → Location → Allow.
"Waiting for approval"	Your registration, or at least one brand, has not been approved yet. Contact your manager.
"Sorry, unable to open the file" (Chrome)	Always use the app link or the home-screen icon, not the direct other link.
"Session expired"	Sign in again or enter your MPIN (happens after 15 minutes of inactivity or at midnight).
"Server is busy"	Wait a few seconds and try again. The app also retries automatically up to three times.
"Report submission is open only from 5:00 PM to 11:00 AM"	Entries can only be made between 5:00 PM and 11:00 AM.
