1. About the app

Image DSR (Daily Sales Reporting) is Image Marketing's mobile app for recording daily sales. It shows Target, Achievement, comparison with the same period last year (L2L) and Growth in real time.

This manual is for the **Sales Head** role. In the app you can:

- View the region DSR, reports and Dashboard
- Approve or reject several requests at once
- AM / Retail AM / Retail TL mapping and designation changes (up to AM)
- View locations and handle password resets

> **Note:** Everyone uses the same link: the app link sent to you on WhatsApp. After you sign in, the app automatically shows the screens for your role.

2. Installing the app (one time only)

Android phone (Chrome)

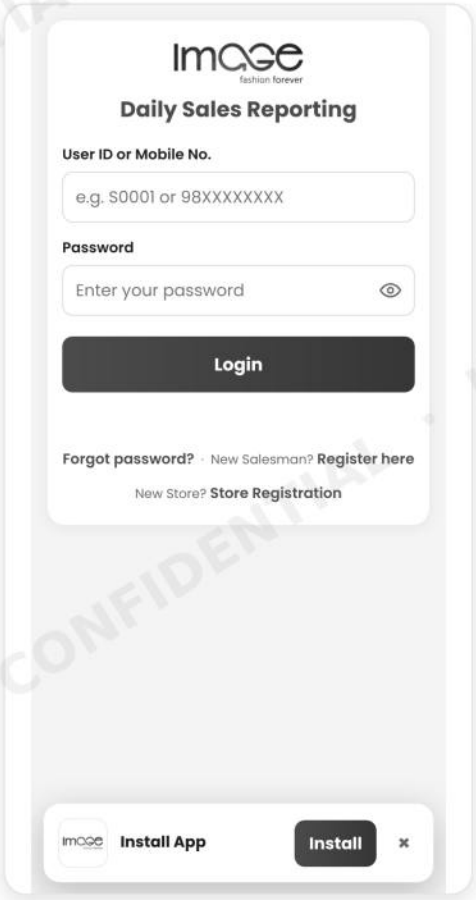

1. Tap the link you received on WhatsApp. If it opens inside WhatsApp, tap ⋮ at the top and choose **Open in Chrome**.
2. Two to three seconds after the app opens, an **Install App** bar appears at the bottom. Tap **Install**.
3. When Chrome asks for confirmation, tap **Install** again. The **Image DSR** icon is added to your home screen.
4. From now on, open the app from this icon.

> **Important:** Installing from the Samsung Internet browser may show "Unsafe app blocked". This is not a security risk, but we recommend opening the link in **Chrome** instead.

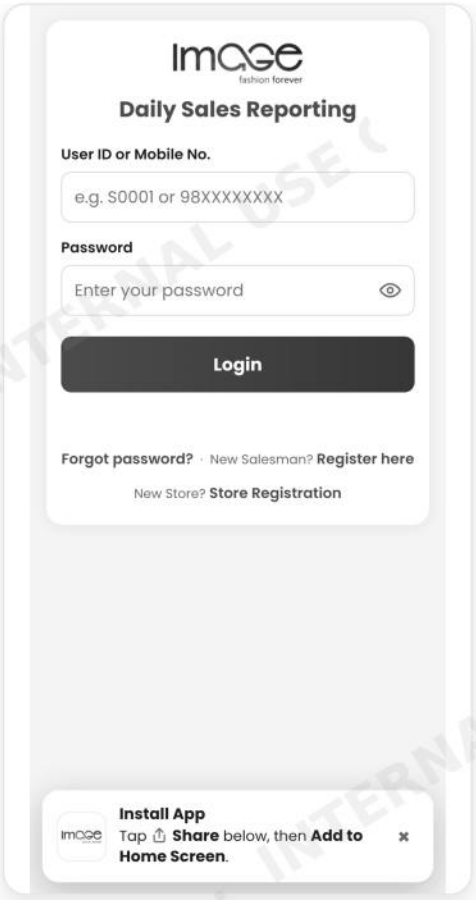

> **Tip:** If the bar does not appear, open the Chrome ⋮ menu and tap **Install app / Add to Home screen**. Apps cannot be installed from an Incognito tab.

iPhone (Safari)

1. Open the link in **Safari**.
2. Tap the **Share** button at the bottom (a square with an upward arrow).
3. Tap **Add to Home Screen**, then **Add**.

Android: the "Install App" bar

iPhone: Share → Add to Home Screen

3. Signing in, MPIN and signing out

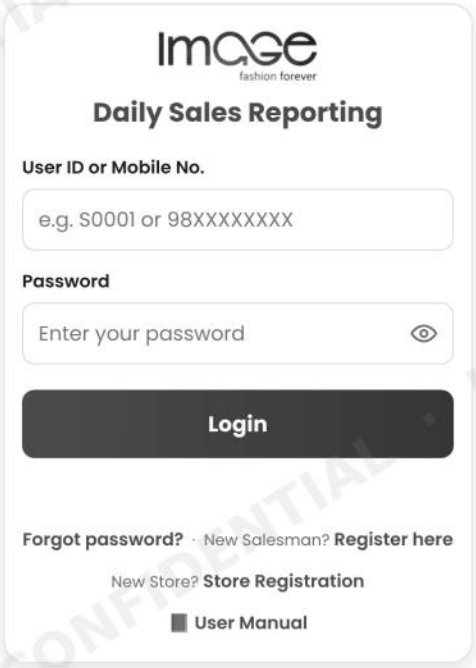

Your User ID and first password are provided by the Admin or your manager.

Sign in with your password

1. Enter your **User ID** (for example S0001) or your **mobile number**.
2. Enter your **Password**. Tap the 👁 eye icon to show the password.
3. Tap **Login**.

MPIN (phones only)

1. The first time you sign in with your password, the **Set MPIN** window appears.
2. Enter a 4-digit MPIN twice (simple codes such as 1111 or 1234 are not accepted) and tap **Save MPIN**.
3. Next time you open the app, just enter the 4 digits to sign in.

Sign-in screen

Setting the MPIN

Next time: MPIN only

> **Important:** After 5 wrong MPIN attempts the MPIN is removed and you must sign in with your password. Before giving the phone to someone else, tap **Not you? Remove MPIN** on the MPIN screen. MPIN is not offered on computers.

Automatic sign-out

- You are signed out after 15 minutes without activity, and every night at midnight. On a phone you are then asked for your MPIN.
- Tapping **Logout** in the profile menu takes you to the normal sign-in screen, which also shows a **Login with MPIN** link.

4. The profile menu: photo, help, MPIN, password and sign-out

Your **name and role** are shown at the top right. Tap your **round photo** (marked ☰) to open the profile menu:

- 📷 **Change Photo**: take or choose a new profile picture.
- 📘 **Help**: open this manual for your role in Hindi or English. **Manuals for other roles** lists all roles.
- 🔒 **Set MPIN / Change MPIN**: create, change or remove your MPIN (phones only).
- 🔑 **Change Password**: enter your current password and the new password twice, then tap **Change**.
- 🔄 **Reset Password**: password reset requests from your team (see the "Password reset" section).
- ➤ **Logout**: sign out of the app.

The menu shows only the options available to your role. Tap anywhere outside the menu to close it.

Forgot your password?

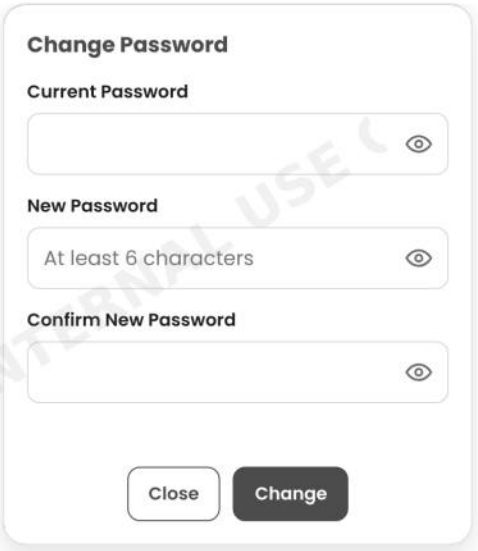

1. On the sign-in screen, tap **Forgot password?**.
2. Enter your User ID or mobile number and tap **Send Request**.
3. Your manager will give you a **one-time password (OTP)**. Sign in with it, then set a new password of your own.

Why the app asks for your location

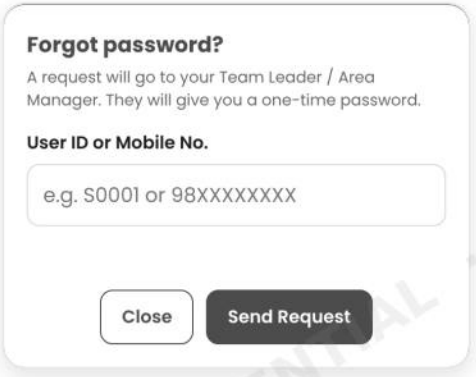

Your phone's location is recorded when a Salesman or Store Manager signs in, and with every sale entry, Excel upload and registration. The app will not continue without it. Keep **Location (GPS)** turned on and **Allow** the app to use it.

5. Approvals

You receive the following requests:

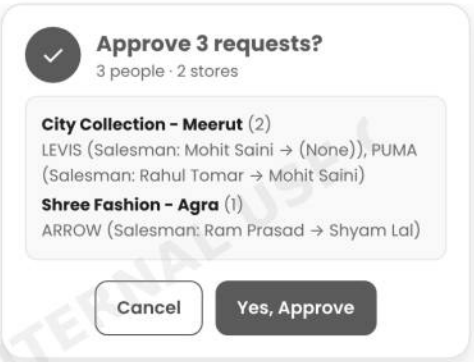

- **Store Registration** (AM + you)
- **Team Change**: from Store Managers / TLs (AM + you) and from AMs (you + CEO / MD)
- Registrations as well, where no AM is assigned

1. Requests appear in the **Waiting for your approval** box at the top.
2. Tick the requests to approve, or tap **Select all**. You can narrow the list with 🔍 search first; Select all ticks only the rows shown.
3. Tap **Approve Selected** or **Reject Selected**.
4. Check the store-wise list in the confirmation window, then tap **Yes, Approve** or **Yes, Reject** (you can add a reason when rejecting).

> **Note:** Each request goes to the next two levels above. If a level is vacant, the request moves up to the next level. A rejected request can be approved later from Team Mapping → Change Requests using **Approve now**.

Approving several requests

Confirmation

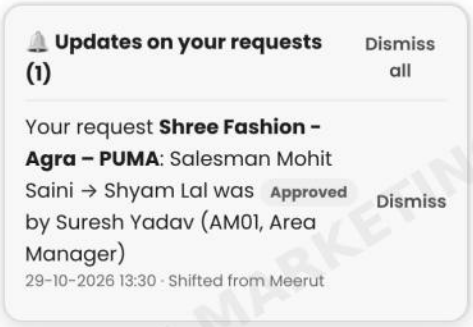

6. Updates and password resets

Updates on your requests

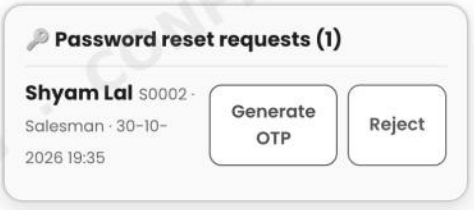

Decisions made in the last 7 days on your requests or registrations (Approved / Rejected) appear at the top. **Dismiss** hides an update on this phone only; the request itself is not affected.

Password reset requests

1. When a team member uses "Forgot password", a **Password reset requests** box appears at the top (also available from **Reset Password** in the profile menu).
2. Tap **Generate OTP** and give the one-time password to that person.
3. They sign in with the OTP and set a new password. Tap **Reject** if the request is not genuine.

7. DSR tab: team report

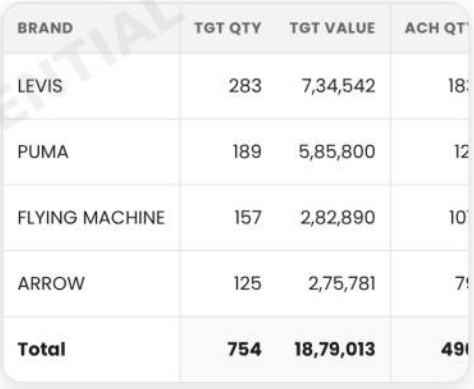

This tab shows the report for your region. Use the filters at the top to narrow it down:

Filter	Purpose
Date	Report up to this date
Status	Active / inactive brands
Store Type	Own (retail) / other stores
Store / Brand / Salesman	A single store, brand or salesman
Data	Final (Actual + Input), Salesman Input, or Actual (System)

- Below the filters is the **DSR card** (Day / Week / Month / Year).
- **Table**: use the **By** drop-down to group by Store, Brand, Salesman, TL and so on. Switch the period with **Day / WTD / MTD / YTD**.
- Tap a row in the table to open the next level (for example, Store → its Brands).
- Use the 🔍 search box above the table to show only matching rows.
- **Download Excel**: export the report and daily entries.
- Long drop-downs have a 🔍 button: tap it and type part of a name to find it quickly.

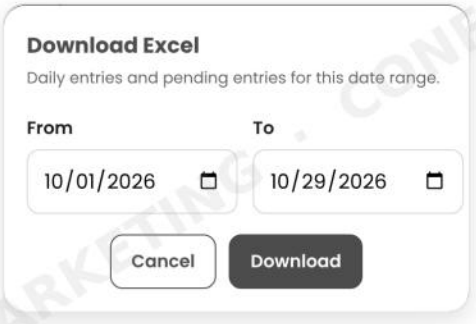

Filters

BRAND	TGT QTY	TGT VALUE	ACH QT
LEVIS	283	7,34,542	18
PUMA	189	5,85,800	12
FLYING MACHINE	157	2,82,890	10
ARROW	125	2,75,781	7
Total	**754**	**18,79,013**	**49**

Table (by brand)

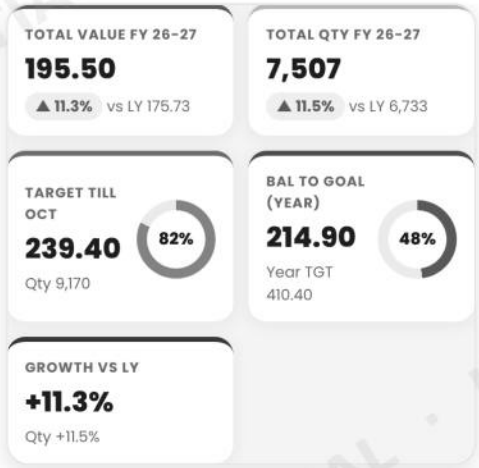

Downloading Excel

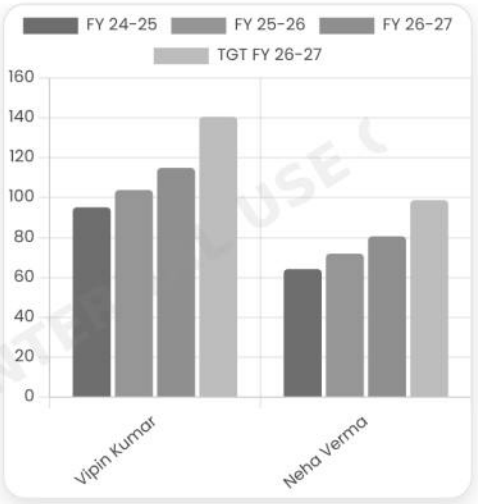

8. Dashboard

The Dashboard is visible only when **Dashboard = Yes** is set against your name in the user settings (always visible to the CEO and MD).

Section	What it shows
Filters	Month, **Year till Month / Month**, Region, AM, TL, Own / Other Store, Store, Brand, Salesman, value unit (₹ Lakh / Crore)
Summary cards	Total Value and Total Qty (with % change vs last year), Target, Balance to Goal, Growth
Bar chart	Three years plus Target, grouped by TL / AM / Store / Brand and more. Tap a bar to drill down
Brands Contribution	Share of each brand (%)
Monthly Trend	This financial year by month, compared with the previous two years and the target
Top / Bottom 10	Best and weakest performers this year, and last year's top 10
Season	Summer (Mar–Aug) and Winter (Sep–Feb) comparison
Year on Year	Year to date, month, Summer and Winter cards for three years

Summary cards

Bar chart

Year on Year

9. Team Mapping: changing salesmen and team

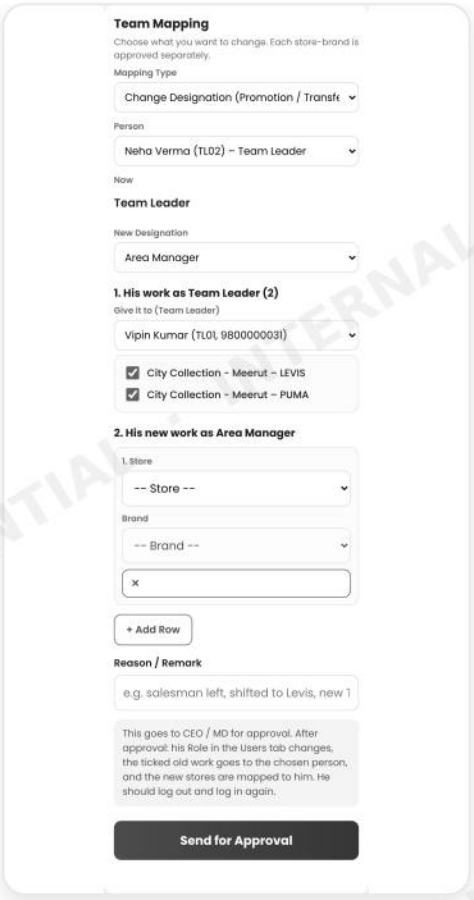

Choose what you want to change from the **Mapping Type** drop-down:

Mapping Type	What it does
Salesman Brand Mapping	Remove a salesman's old brand or assign a new one within a store (Salesman | Store | Old Brand | New Brand)

Mapping Type	What it does
Salesman Store Change	Transfer a salesman to another store. If the brand stays the same, New Brand is filled in automatically
Team Leader Mapping	Assign store-brands to a Team Leader
AM / Retail AM / Retail TL Mapping	Assign store-brands to people in these roles
Replace Person (Left / Handover)	Hand over all of a leaver's work to a new or existing person in one step
Change Designation	Change roles up to AM

1. Choose the Mapping Type and fill in the form. Use **+ Add Row** to add several rows at once.
2. Enter a **Reason / Remark**.
3. Tap **Send for Approval**. Your request goes to the **CEO / MD**.

- The brand drop-down shows who is currently assigned, for example "LEVIS – now Ram Prasad". " (change waiting)" means a change is already awaiting approval.
- **Current Team** lists the Salesman, TL and AM for each brand. Changes awaiting approval are shown as "→ name (waiting)".
- **Change Requests** at the bottom shows when and by whom each change was requested, its status, and who approved it.
- Reports show a store-brand's sales under the person currently assigned. The person assigned on each day is kept in the app records and in the Daily Entries Excel export.

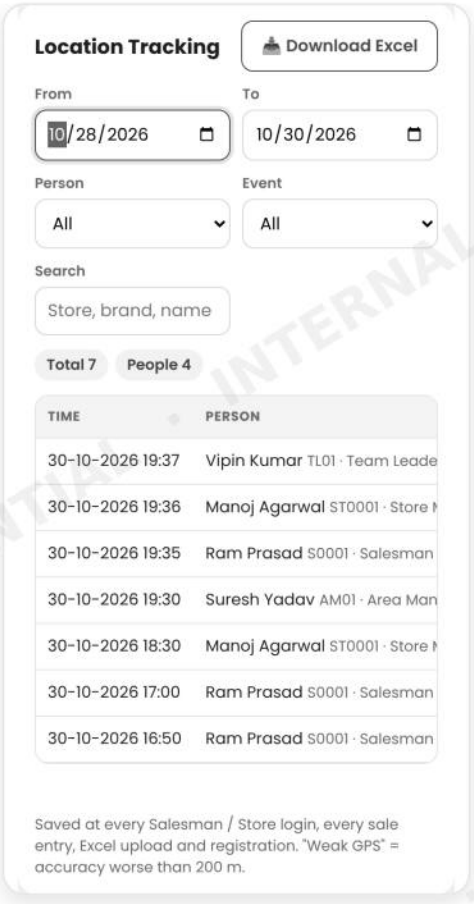

Change Designation

10. Location tab: team locations

The location of each team sign-in (Salesman / Store Manager), sale entry, Excel upload and registration is recorded here.

- Filter by **From / To** date, **Person** and **Event** (Login, Sale Entry, Excel Upload, Registration).
- Tap 📍 **Open** on any row to see the place on Google Maps.
- **weak GPS** means the location is accurate to more than 200 metres only.
- **Download Excel**: export the full list.

> **Note:** Locations are captured only at these moments; this is not continuous live tracking.

Location tracking

11. Troubleshooting

Problem	What to do
"Wrong User ID or password"	Check your User ID / mobile number and password. After 5 failed attempts, wait 15 minutes.
"Location is required" / permission blocked	Turn on phone Location. Tap 🔒 next to the web address → Permissions → Location → Allow.
"Waiting for approval"	Your registration, or at least one brand, has not been approved yet. Contact your manager.
"Sorry, unable to open the file" (Chrome)	Always use the app link or the home-screen icon, not the direct other link.
"Session expired"	Sign in again or enter your MPIN (happens after 15 minutes of inactivity or at midnight).
"Server is busy"	Wait a few seconds and try again. The app also retries automatically up to three times.
